Part (C): Reading Comperhension

Read the following passage and then answer the questions.

In the late 20th century came widespread use of amphetamines and anabolic steroids. The former permit athletes to draw upon their physical reserves and continue despite the extremes of exhaustion until they collapse and, occasionally, die. Steroids are through to increase muscle mass and muscular strength, but the side effects include damage to various organs and, in the case of women, masculinization (e.g., facial hair, deeper voices). Efforts of the Internaional Olympic Committee to limit drug abuse have been often frustrated by national Olympic committees determined upon sports victories at any cost. Efforts to control drug abuse in professional sports and in intercollegiate athletics have frequently been countered by the athletes' concerns regarding personal privacy. Nevertheless, in the United States, codes of varing strictness have been imposed in different sports, part of which includes the requirement of periodic testing for drug abuse. Olympic athletes now undergo testing prior to participation.

25- What does the passage mainly discuss?

1. drug abuse
2. side effect of drugs
3. testing olympic athletes
4. International Olympic Committee

26- "the former" in line 1 refers to which of the following words?

1. drugs
2. anabolic steroids
3. athletes
4. amphetamines

27- According to the passage, efforts of the international olympic committee to limit drug abuse

1. have been imposed.
2. have been resulted.
3. have been frustrated.
4. have been countered.

28- The pronoun " they" in line 3 refers to which of the following?

1. amphetamines and anabolic steroids
2. the former
3. physical reserves
4. athletes

29- The word "codes" in line 9 could best be replaced by

1. passwords
2. rules
3. cause
4. mention
