Passage 1

The Olympic movement is recognized around the world by three emblems: the rings, the flag and motto. The Olympic flag and the rings symbolize the union of the 5 continents and the meeting of athletes from all over the world at the Olympic Games in a spirit of fair and frank competition and good friendship, the ideal **preached** by Baron de Coubertin. The colors of the rings are blue, yellow, black, green and red, on a white background. At least one of these colors is found in the flag of every nation of the world.

A motto was also carried on the flag "Citius **Altius** Fortius". It was devised by Father Didon, a teacher and friend of de Coubertin.

These three emblems are the exclusive property of the IOC and cannot be used without its authorization. One of the duties of NOCs is to see that this rule is enforced. The emblems belong to the IOC but they unite all who support the Olympic Movement anywhere in the world.

26- Passage 2

Sports- related spectator violence is, however, often more strongly associated with social group than with the specific nature of the sport itself. Roman gladiation combats were, for example, history's most violent sport, but the closely supervised spectators, carefully **segregated** by social class and gender, rarely rioted. In modern times, association football is certainly less violent than rugby, but "soccer hooliganism is a worldwide phenomenon, while spectator violence associated with the more upper- class but rougher sport of rugby has been minimal. Similarly, crowds at baseball games have been more unruly than the generally more affluent and better- educated fans of American football, although football is unquestionably the rougher sport. Efforts of the police to curb sports- related violence are often counterproductive because the young working –class males responsible for most of the trouble are frequently hostile to the authorities. Media coverage of disturbances can also act to exaggerate their importance and to stimulate the crowd behavior simultaneously condemned and sensationalized, as is violence on the field. The frequent fights between U.S. National Hockey League players seem to be a consistent feature of sports **highlights** on television.

What about the passage mainly discuss?

- | | |
|---------------------|---------------------------|
